

The Ulmer Mechanical Fan Blade Puller

Available From

Ulmer Tool Company

P.O. Box 436 • Highway 23

Empire, LA 70050

1-888-657-5835

The Best Value For Your Money:

- Patented — All steel construction.
- Chrome molybdenum drive shaft.
- Comes with a ball bearing on the drive shaft tip for protection of the tip.
 - Has special line-up holes that line up the tool on the fan hub to make shaft line-up simple.
- Has fine threads on the drive shaft to give more power with less effort.
 - Will accept 5" shaft overhang.
- Shaft overhang goes inside puller tube and cannot cock to one side and bend drive shaft.
 - Limited two-year warranty — Made in the U.S.A.
 - Pushes shaft completely out of hub.
